OPINIONS OF GREAT MEN.

Dante adored woman; Wordsworth commended her; Shake-speare loved her; Tolstoi planted her in sunshine and watered her with his tears, only to tear her up by the roots at last; Buras smiled at her; Moore succumbed to her; Henry James studies her; Maupassant thinks her wicked but interesting; Bourget dissects her; Balzac understands her.—Alice Wellington Rollins.

or All Pain

"The efficiency of any drug" says Dr. C. P. Robbins. "Is known to us by the results we brain from its use. If we are able to convol pain and disease by means of any preparation, we certainly are warranted in its see. One of the principal symptoms of all liseases is pain, and this is what the patient lost often applies to us for, i. e. something o relieve his pain. If we can arrest this roomptly the patient is most liable to trust a us for the other remedies which will effect a permanent cure. One remedy which I eve used largely in my practice is anticumist tablets. Many and varied are their ses. I have put them to the test on many ecasions, and have never been disappoint. I found thom especially valuable for eadaches of malarial origin, where quinine has being taken. They appear to prevent the bad after-effects of the quinine. Anticamnis tablets are also excellent for the leadaches from improper digestion; also for headaches of a neuraliste origin, and expecially for women subject to pains at Certain times. Two anti-kamnia tablets give prompt relief, and na short time the patient is able to go about as usual." These tablets may be obtained at all druggists. Ask for A-K Tablets. They are also unexcelled for headaches, neuralish and all pain.
